EC-FP7 Theme 6 Environment call (including Climate Change)

ENV.2013.6.5-4 Knowledge platforms, networking and uptake of research results for more strategic international R&I cooperation – FP7-ENV-2013-one-stage

The objectives are to establish sustainable research and innovation cooperation between main EU and third country actors and to enhance uptake of research results on subjects of mutual interest in the areas of climate action, resource efficiency and raw materials, as described in the Commission proposal for Horizon 2020. Targeted regions are:

- a) **Latin America**,
- b) ASEAN,
- c) the Mediterranean and the Black Sea,
- d) the North Atlantic.

INTERNAL DOCUMENT - DRAFT WORK PROGRAMME FOR 2013 ENVIRONMENT RESEARCH

THEME 6 ENVIRONMENT
(INCLUDING CLIMATE
CHANGE)

ORIENTATION PAPER 2013

APRIL 2012

Working document – not legally binding

Important notice:

This paper is made public at an early stage in the adoption process of the work programme to provide potential applicants with the current expected main lines of the 2013 work programme. It is a working document not yet endorsed by the Commission and its content does not in any way prejudice the subsequent modifications by the Commission, the subsequent formal opinion of the Programme Committee nor the final decision of the Commission. The final adoption and the publication of the later work programme by the Commission are expected by mid-July 2012 via <http://ec.europa.eu/research/participants/portal/page@cooperation>. Only the adopted work programme will have legal value.

Information and topic descriptions indicated in this orientation paper may not appear in the final work programme; likewise, new elements may be introduced at a later stage. No essential information, such as indicative budgets per call/area, will be provided by the Commission until the final work programme is adopted. Any such information disclosed by any other party shall not be construed as having been endorsed by or affiliated to the Commission. The Commission expressly disclaims liability for any future changes to the content of this document.

Connecting Caribbean and European Researchers, Policy Makers and Stakeholders in Joint research Actions

EUCARINET is a four-year INCONET Coordination Action, supported by the European Commission (DG RTD-INCO), whose main goal is to strengthen bi-regional sustainable dialogue on Science and Technology between Europe and the Caribbean.

The project consortium includes 11 partners, 5 from the EU and 6 from the Caribbean, representing stakeholders from research, industry, government and civil society, that will ensure the fulfillment of EUCARINET's objectives.

EUCARINET TRAVEL GRANT SCHEME

The 2012 EUCARINET Travel Grant Scheme is open from the 2nd of **April 2012 to the 20th of July 2012.**

TRIL

The ICTP Programme gives scientists from Developing Countries, Central and Eastern Europe the opportunity to spend periods ranging from a few months to one year at Italian research laboratories of universities, governmental and private institutions, which operate in different branches of Physics. This includes academic studies as well as practical applications and industrial projects. Follow up visits and collaboration programmes are also envisaged.

The screenshot shows the top portion of the ICTP website. At the top left is the ICTP logo, which consists of the letters 'I', 'C', and 'P' stacked vertically next to a globe icon. To the right of the logo is the text 'The Abdus Salam International Centre for Theoretical Physics'. In the top right corner, there is a small purple box with the text 'Google Analytics'. Below the logo and text is a horizontal navigation bar with four tabs: 'ICTP is', 'RESEARCH', 'EDUCATION & TRAINING', and 'OUTREACH'. The 'OUTREACH' tab is highlighted with a red underline. Below the navigation bar is a banner image showing a group of five people (three men and two women) looking at something together. Below the banner is a horizontal menu with six items: 'ABOUT ICTP', 'PROGRAMMES', 'SCIENTIFIC CALENDAR', 'CAMPUS LIFE', and 'ONLINE LEARNING' (with a small icon to its left). Below the menu is a footer area with two columns. The left column contains the text 'office of external activities' and 'ICTP in Brazil'. The right column contains the text 'home / outreach / training and research in Italian laboratories', the word 'TRIL' in large red letters, and 'Training and Research in Italian Laboratories'.

Overview

A [Prospectus](#) (March 2008) for the Intra-Americas Study of Climate Processes program.

To achieve its goals, IASCLIP:

- improved model simulations
- provide detailed and targeted observations
- designed to complement a suite of enhanced long-term observations.
- lead to improvement for climate and regional forecasting agencies.
