## 16th International Workshop on Computational Physics and Materials Science: Total Energy and Force Methods | (smr 2440)

Contribution ID: 18 Type: not specified

## Competition between the electronic and phonon-mediated scattering channels in the out-of-equilibrium carrier dynamics of semiconductors: an ab-initio approach

Friday, 11 January 2013 11:30 (0:30)

Content

Summary

Primary author(s): ANDREA MARINI (ISM, CNR, Italy)

Presenter(s): ANDREA MARINI (ISM, CNR, Italy)

**Session Classification**: Competition between the electronic and phonon-mediated scattering channels in the out-of-equilibrium carrier dynamics of semiconductors: an ab-initio approach
