16th International Workshop on Computational Physics and Materials Science: Total Energy and Force Methods | (smr 2440)

Contribution ID : 19 Type : not specified

Dynamical screening effects from first principles: implications for low-energy models and application to the iron pnictides

Friday, 11 January 2013 14:00 (0:30)

Content

Summary

Primary author(s): MICHELE CASULA (Université Pierre et Marie Curie, France)

Presenter(s): MICHELE CASULA (Université Pierre et Marie Curie, France)

Session Classification : Dynamical screening effects from first principles: implications for low-energy

models and application to the iron pnictides
