

Magnetic Field Effects on the Finite-Frequency Noise and AC Conductance of a Kondo Quantum Dot out of Equilibrium

Thursday, 11 April 2013 17:10 (0:20)

Content

Summary

Primary author(s) : SABINE ANDERGASSEN (University of Vienna, Austria)

Presenter(s) : SABINE ANDERGASSEN (University of Vienna, Austria)

Session Classification : Magnetic Field Effects on the Finite-Frequency Noise and AC Conductance of a Kondo Quantum Dot out of Equilibrium
