

Static and dynamic susceptibilities in the metallic state of Cs₃C₆₀ isomeric compounds deduced from Knight shift and nuclear spin lattice relaxation data

Tuesday, 24 September 2013 12:35 (0:20)

Content

Summary

Primary author(s) : P. WZIETEK (Université Paris-Sud (Orsay, France))

Presenter(s) : P. WZIETEK (Université Paris-Sud (Orsay, France))

Session Classification : Static and dynamic susceptibilities in the metallic state of Cs₃C₆₀ isomeric compounds deduced from Knight shift and nuclear spin lattice relaxation data
