

## **2D organics crossing Mott boundary: AF/spin liquid, quantum criticality, pseudo-gap and superconductivity**

*Thursday, 26 September 2013 12:15 (0:45)*

### **Content**

### **Summary**

**Primary author(s) :** K. KANODA (University of Tokyo (Japan))

**Presenter(s) :** K. KANODA (University of Tokyo (Japan))

**Session Classification :** 2D organics crossing Mott boundary: AF/spin liquid, quantum criticality, pseudo-gap and superconductivity
