

Resistive switching induced by an electronic avalanche phenomenon in the narrow gap Mott Insulators GaM₄Q₈ (M = V, Nb, Ta ; Q = S, Se)

Tuesday, 15 October 2013 16:30 (0:45)

Content

Summary

Primary author(s) : LAURENT CARIO (Université de Nantes, France)

Presenter(s) : LAURENT CARIO (Université de Nantes, France)

Session Classification : Resistive switching induced by an electronic avalanche phenomenon in the narrow gap Mott Insulators GaM₄Q₈ (M = V, Nb, Ta ; Q = S, Se)
