Seventh ICTP Workshop on the Theory and Use of Regional Climate Models | (smr 2581)

Monday 19 May 2014

- AGH (Kastler Lecture Hall) (09:15-18:00)

time	title	presenter
09:15	Urban environment impact on climate	T. HALENKA
09:30	Modeling of Climate Indices for the Temperature Regimen in the Territory of Georgia by using RegCM4	M. ELIZBARASHVILI
09:45	Cloud-Aerosol Interaction in RegCM4: Indirect effects of aerosols over Africa	A. ZAKAY
10:00	Space- and Ground-Based Investigation of Atmospheric Aerosols and their Impact on Climate Over Egypt (A PEER NSF USAID NAS Project)	A. IBRAHIM
10:15	Simulating the Characteristics of extreme rainfall events over Southern Africa using Regional Climate Models	B. J. ABIODUN
10:30	coffee break	
11:00	lab session	
12:30	lunch break	
14:00	lab session	
15:30	coffee break	
16:00	lab session
