ICTP Mini Symposium on Particle Physics Phenomenology

Monday 14 April 2014

(14:00-18:20)

time	title	presenter
14:00	A very strong bound on the mass of a particle	SERGEI DUBOVSKY
14:40	A WIMP dark matter particle around the corner? Search strategies and theoretical issues	THOMAS HAMBYE
15:20	New Physics with Fat Jets	JACOB WACKER
16:00	Coffee break	
16:30	The universe as a lab: Tales of scales	PASQUALE SERPICO
17:10	Indirect searches for dark matter: Status and prospects	CHRISTOPH WENIGER
17:50	Towards predictive models	MICHAEL RATZ
