International Workshop on Computational Physics and Materials Science: Total Energy and Force Methods | (smr 2703)

Saturday 17 January 2015

Interfaces - LB (Budinich Lecture Hall) (10:00-11:30)

- Conveners: Koch, Erik

time	title	presenter
10:00	Confinement-induced electronic reconstruction in (001) and (111) oriented perovskite superlattices	PENTCHEVA, Rossitza
10:30	First-principles dynamical mean-field perspective on electron correlation and magnetism in oxide heterostructures	LECHERMANN, Frank
11:00	Engineering polar discontinuities in honeycomb lattices	GIBERTINI, Marco
