CLIVAR-ICTP Workshop on Decadal Climate Variability and Predictability | (smr 2716)

Thursday 19 November 2015

Session 6: Monsoon and Teleconnections - Chair: Fred Kucharski - Leonardo Building - Budinich Lecture Hall (09:00-14:30)

time	title	presenter
09:00	Decadal variability of the Asian Monsoon	TIANJUN ZHOU
09:20	Interplay between the Indian Ocean, ENSO and the Monsoon in a warming environment	ROXY MATHEW KOLL
09:40	Decadal variability of the West African Monsoon and eastern equatorial Africa	ALESSANDRA GIANNINI
10:00	20th Century decadal variability of Sahel rainfall and moisture budget analysis	CATHERINE POMPOSI
10:15	Decadal Prediction of Sahel rainfall using dynamics based indices -	ELSA MOHINO
10:30	Coffee Break	
11:00	Decadal variability of ENSO teleconnections in the South Asian region	IN-SIK KANG
11:20	Simulated sensitivity of the tropical climate to extra tropical thermal forcing	STEFANIE TALENTO COSTA
11:35	ENSO teleconnections with the North Atlantic	BELEN RODRIGUEZ FONSECA
11:50	Sources of multi-decadal predictability in the Mediterranean region: the role of forced versus internal variability	ALESSIO BELLUCCI*, ANNARITA MARIOTTI**
12:05	Discussion Session	
13:00	BUFFET LUNCH (at the back of the cafeteria)
