

Advanced Workshop on Cosmological Structures from Reionization to Galaxies: Combining Efforts from Analytical and Numerical Methods | (smr 2731)

Contribution ID : 60

Type : not specified

How the Cosmological Dark-Matter Sheet Stretches and Folds up to Form Cosmic Structures

Friday, 15 May 2015 11:00 (0:20)

Content

Summary

Presenter(s) : NEYRINCK, Mark (Johns Hopkins Univ., Dept. of Physics & Astronomy, Baltimore, U.S.A.)

Session Classification : Morning Session
