7th International Workshop on Multiple Partonic Interactions at the LHC | (smr 2732)

Wednesday 25 November 2015

MPI & Small x & Diffraction - Leonardo Building - Budinich Lecture Hall (10:05-15:00)

time	title	presenter
10:05	Relating low-x DIS structure functions to hadronic total cross sections	L. JENKOVSZKY
10:30	Coffee Break	
10:50	Dynamic color rescattering model using kT factorization for DDIS	D. WERDER
11:15	Inclusive three jet production at the LHC as a new BFKL probe	G. CHACHAMIS
11:40	Improved TMD factorization for forward di-jet production in pA collisions	E. PETRESKA
12:05	Gauge-invariant gluon TMDs from large- to small-x in the coordinate space	I. CHEREDNIKOV
12:30	Lunch	
14:00	The story of UE measurements	R. FIELD
