School and Conference on Dynamical Systems | (smr 2749)

Wednesday 29 July 2015

- Leonardo Building - Budinich Lecture Hall (09:00-18:20)

time	title	presenter
09:00	Applications of homogeneous dynamics: from number theory to statistical mechanics (part 5)	JENS MARKLOF & ANDREAS STRÖMBERGSSON
10:15	Renormalization in low dimensional dynamics (part 8)	MARCO MARTENS
11:30	Almost reducibility for the linear quasi-periodic wave-equation	HAKAN ELIASSON
12:15	Lunch	
13:45	Tutorial	
15:15	Three fundamental problems concerning codimension-one foliations	ANDRÉS NAVAS
16:05	Ergodic theory for expanding thurston maps	ZHIQIANG LI
16:25	Symbolic Dynamics for Normally Hyperbolic Foliations	PABLO CARRASCO
17:00	Applications of homogeneous dynamics: from number theory to statistical mechanics (part 6)	JENS MARKLOF & ANDREAS STRÖMBERGSSON
